

# Fraction Number Stories

## Home Link 7-11

NAME

DATE

TIME

**Family Note** Today your child solved fraction number stories using a variety of fraction models, including pictures. Encourage your child to sketch a picture to represent each story.

*Please return this Home Link to school tomorrow.*

Solve these number stories. Show your answer as a fraction.  
You may draw pictures to show your work.

- ① Ralph read  $\frac{1}{8}$  of his book. What fraction of the book does he still have left to read?

My sketch:

\_\_\_\_\_ of his book

- ② Four friends equally share two bottles of juice. How much juice will each friend get?

My sketch:

\_\_\_\_\_ of a bottle of juice

- ③ Nora rode her bike  $\frac{2}{2}$  of a block. Brady rode his bike  $\frac{4}{4}$  of the same block. Compare the distances each child rode. What do you notice? Explain your answer.

My sketch:
